Mattress - Highly Responsive to Body Contours

Scaling a new heights in our domain we are one of the leading manufacturer, supplier and exporters of 100% natural latex rubber foam mattresses, pillows and cushions we are known for our quality and variety.

All our mattresses are designed by craftsmen with over 32 years of experience. Mattress designs combine the most advanced healthcare knowledge with residential mattress needs. Our Warranty ensures that you are purchasing the perfect sleep.

Advantages of Latex Foam Mattresses

- Latex foam is a natural rubber product derived from tree sap
- Latex foam provides flexibility and firmness to offer maximum support for every contour of the body, allowing for total muscle relaxation
- Latex foam is a naturally aerating product - it is composed of millions of open cells which promotes excellent air circulation
- Latex does not retain moisture and is, therefore, highly hygienic
- Anti-microbial and dust-mite resistant - safe for allergy sufferers
- Certified to present no dangers to human health or the environment

Our products are widely preferred by clients due to the following features:

- Exclusive & comfortable pattern
- Durable
- Adequate softness
- Comprehensive prices
- Pure Organic
- Stained Proof
- Covered with quality fabrics
- Convenient packaging

Industry We Serve

Our products have been catering to diversified sectors and client response is quite well. We offer our products to hospitality sectors, health care units, home furnishing industry, automobile industry, furniture manufacturing units, packaging industry etc

Comfort Foam is one of the world's leading manufacturers of latex foam components for the bedding industry. We produce a large range of mattress, toppers, pillows, cushions and above all we can make any size and shape according to customers demand made from latex foam.

Comfort Foam products uses the highest quality natural latex in the industry for all mattress, pillows & toppers. Elasticity and resiliency are dominant characteristics of natural rubber bedding components, our components offer outstanding durability and guarantee the ultimate comfort in any sleeping position. This is the "greenest" component available to the industry and the most "eco friendly" product in the market.

Comfort Foam Products, because of their superior quality is a true established brand in the Indian market since last 32 years, as the largest natural latex Mattress manufacturing company, who sells Dreams and you spend one-third your life on it.

About Us

Comfort Foam had humble beginning in 1979, as an independent manufacturer and supplier of Natural latex, Rubber foam, Mattresses, Pillows & Cushion

Mr. Rashid Mansuri, the man behind our company, strategically established the office at Badlapur, Thane district of Maharashtra (India). And Mr Sohail Mansuri is currently moving ahead the company's fame in the international market. Our presence in this industry is of more than 50 years and we have gathered in-depth experience in trading and customer service pertaining to the trade.

Our Values

We try to remain at the service of the clients 24x7 and continuously enhancing the quality of our products. Our core value stands on innovation and application of modern technology. We strengthen our core values with dedication, punctuality, loyalty and offering qualitative products to the global market.

Mission

Our mission is to provide the end consumer with the high quality standard pillows and mattresses, which at the end of the day gives them desired relief. Our effort is to create new horizons of excellence by offering exclusive products at a reasonable rate.
